

## **National Transportation Product Evaluation Program (NTPEP)**

### **TESTING SERVICE FEE SCHEDULE for** **Warm Mix Asphalt Technologies** **(2018 TEST CYCLE)**

#### **NTPEP Testing Fees for each Warm Mix Asphalt Technology submitted:**

**Plant Produced: \$11,790 per product**  
**Laboratory Produced: \$4,625 per product**

The Plant Produced category is intended for those technologies that can't be easily replicated in a laboratory setting. A NTPEP designated representative will sample both a HMA control sample and a WMA sample at the production facility and send both samples to the NTPEP designated laboratory for laboratory testing.

The Laboratory Produced category is intended for those technologies that can be replicated in a laboratory setting. One control HMA mix will be tested and be used as the control for all laboratory produced WMA Technologies.

Please refer to the [NTPEP WMA Work Plan](#) for information regarding the laboratory testing scope.
