PCC Joint Sealant/HMA Crack Sealant Technical Committees Conference Call
January 27, 2015
Attendees: Brian Korschgen (AASHTO), Allen Gallistel (MNDOT), Jason Tremblay (VTDOT), Lowell Parkinson (Crafco), Andy Harper (FLDOT), Sam Lawhorn (NCDOT), Mike Guymon (Maxwell), Henry Lacinak (AASHTO)

1. Datamine release status updates:
   a. Joint Sealants-changes in NC
      NCDOT says online data should be online now. We will work on releasing data to manufacturers.
   b. Crack Sealants VTDOT has released all current data.

2. Field testing updates:
   a. Joint Sealants NCDOT is scheduled to go out in mid-March for next data collection visit. Sam Lawhorn is the new contact for NCDOT.
   b. Crack Sealants VTDOT will be doing site visit in mid-February for last site visit. This should be last visit for 2012 products.

3. Possible/probable Texas CS 2015 test deck update TXDOT is still interested in having test deck for Crack Sealants in 2015. They may want to install later than September (possibly December). NCDOT is still interested in having a JS deck in 2015. We can bring up JS with Texas as well if there is interest.

4. Suggestions for agenda items for Annual Meeting Alan asked about mastics evaluation. We need to develop testing (lab/field) aspects to develop work plan for mastics. We may have brainstorming session at annual meeting.

5. Ongoing items from October call
   a. Re-Certification wording needs to be clarified in the work plan, reasons this wasn’t done. Where does the clock start for re-certification? 3 years is currently listed but from what point? When, or should we, archive products? Should we look into moving joint sealant deck in the future?
   b. The fees for lab recertification need to be determined as they are not currently available. Fees will be added for lab testing only (recertification) for the 2015 submission cycle.
   c. User guide rework. We do have a user guide but it probably needs more info. We will look for 2012 word version for edits.

6. Next Call – April 20th
7. Annual Meeting – May 17 – 21 Scottsdale, AZ
8. Henry is transitioning new liaison
