National Transportation Product Evaluation Program (NTPEP)
Durability Standards for Pavement Marking Evaluations

1. Scope

The purpose of these durability standards is to provide a reference for how pavement marking materials are evaluated for durability on an AASHTO/NTPEP pavement marking test deck.

2. Referenced Documents

ASTM Standards:

3. Significance and Use

Durability on an AASHTO/NTPEP pavement marking test deck is conducted according to ASTM D 913. The standards contained in this document consist of pictures for durability ranging from 1 to 10 on the durability scale. To use the standards you compare your sample to the pictures by looking at the portion of the line that is contained within the orange flags.
