1) Reporting and Sampling

2) Submittals
   a. Are multiple plants manufacturing the same product and are we sampling from all plants? Currently this is not being done for geotextiles.
   b. The application must be updated to request if there are multiple manufacturing facilities for a given product and location and contact person for each plant.
   c. Multiple plant issue should be discussed at another conference call in early spring. Jim Curtis will work on what is a statistically the same number. Aho will poll his members to see how many multiple plants there are and invite a few more players to the spring call.

3) DataMine
   a. Status Update

4) Testing
5) Old Business
   a. Britteness test is still in trial mode. Tests will be run but how it will be reported has not been determined. If brittle test fails we will resample. Status?

6) New Business
   Nationwide acceptance of AASHTO M288 Spec??

7) Testing and Reporting
   a. 30th Edition to be published by 4/6/07

8) Adjourn
