Rapid Set Concrete Patch Materials (RSCP)  
Technical Committees Conference Call Agenda  
April 25th, 2014

Attendees: Josh Welge (KSDOT), Dave Morlock (TCC), Mark Nelson (Nelson Testing), Steve Hermanson (BASF), Grant Kao (CTS), Bill Real (NHDOT), Wendy Henry (Quikrete), Brian Korschgen (AASHTO), Pat Galarza (NYDOT)

1. Committee Chair change  
   a. Vice Chair interest?  
   Josh Welge is now at a field office at KSDOT and will be stepping down as RSCP chair. Bill Real will be taking over as Chair. A Vice Chair has not been chosen yet.

2. 2013 Field and Lab updates (Datamine)  
   a. Released April 14th  
   All lab and installation data for 2013 has been released to manufacturers. NY Freeze Thaw data is waiting on the extended mix. It may be a couple weeks before data is completed and released.

3. 2014 deck information  
   a. Submittal period June 1st through July 31st  
   b. Vertical and horizontal products  
   c. Freeze/thaw method (A, B, or both)  
   d. Datamine data additions  
      i. Numerical rating of deterioration?  
      ii. Mass loss  
   We are trying to update product submittals and data entry fields. Vertical and horizontal products may be submitted (lab testing only on vertical products). Freeze thaw test can be run by procedure A, B, or both. Add a rating for deterioration in order to make data searchable. Brian will try to find historical pictures to try to help create rating system.

4. Potential Changes for 2015  
   a. Elimination of Field requirement?  
   b. Prepackaged mortars and grouts?  
   c. Surface Resistivity testing?  
   We are trying to get a feel from States if field data is used. Ohio requires field testing data. We will discuss further at annual meeting. Surface Resistivity testing will be included in 2014 workplan; however, it may not give accurate data for all products.
5. “Filter Find” function of DM 3.0
   a. Manufacturer, Submittal Year, Use (horizontal, v/o, both), Product category (cementitious, polymer-modified, or polymer),
   b. Any other filters?
   We are creating a new filter search function for the new version of DM 3.0. This topic will be addressed at annual meeting.

6. Agenda for annual meeting
   a. Topic ideas?
   b. Due May 1st

7. Important Dates
   a. NTPEP Annual Meeting in Greenville, SC- RSCP May 19th 9:50 am – 11:20 am
   b. Next conference call August 11th at 11 am EST
