Thermoplastic Pipe Technical Committee Quarterly Conference Call
Tuesday, July 31st 11:00 AM – 12:00 PM (EST)

Agenda

1) M294R Update
   i) Work Plan Status
      (1) The work plan has been reviewed by the committee and will be going out to NTPEP ballot at the beginning of August.
   ii) NTPEP Audits
      (1) Once the ballot passes NTPEP will offer M294R audits in 2018. If the manufacturer has not had their audit yet they may add it for the cost of testing. If the manufacturer has had their 2018 audit the manufacturer will need to pay to have a second audit in 2018.
   iii) DataMine Update
      (1) DataMine will be updated to clearly identify M294 R and V material.
   iv) Markings
      (1) The NTPEP grace period for marking ends August 1st. Based on the audits we have been doing most facilities have current acceptable markings.

2) SRPE Task Force Update
   a) 2019 Audits
      i) Still on Target
   b) Steel Materials
      i) ASTM A653 G60 Minimum coating weight
      ii) Does this need to be in the work plan?
   c) Tensile Strength at Seam
i) Is this needed in the work plan?

3) PVC Program
   a) Dissolution Procedure
   b) Task force needed
      i) A task force needs to be created to decide how to move forward with this program.
      ii) There were not any volunteers for the task force.
      iii) Ryan will discuss the issue with the NTPEP steering committee.

4) Time and Date for Next Call – ??th
