Warm Mix Asphalt
Technical Committees Conference Call
July 21th, 2015

Attendees: Oak Metcalfe (MTDOT), Barry Paye (WIDOT), Jack Cowsert (NCDOT), Tanya Nash (FLDOT), Charlie Pan (NVDOT), Steve Saboundjian (AKDOT), Patrick Icenogle (LADOT)

1. Annual Meeting Review

2. T164 Extraction resolution  FLDOT will utilize a consultant to perform T164 Method A. Once this test has been performed, the consultant would then send it back to FLDOT for binder testing.

3. DataMine update  DataMine 2.0 is ready to accept products for WMA testing. We will develop a data entry spreadsheet to incorporate into DataMine 3.0 in the future.

4. Industry Outreach  We need to reach out to industry and states to let them know of this program. Please send all email address for potential manufacturers to Brian Korschgen (bkorschgen@aashto.org). States should think about requiring this program in their specifications. This would entice manufacturers to submit products to the NTPEP program.
   a. AASHTO SOM Meeting (Aug 2nd – 6th)  We will inform states and industry of this program at the SOM meeting in Pittsburgh.

5. Submission cycle open September 1st through November 30th?  Brian will send out mass email to manufacturers on September 1st (using CC to all manufacturers) notifying them that they can submit products to NTPEP for testing.

6. Begin testing in early 2016?  FLDOT is ok with this timeline.

7. Next Call 2 pm on October 20th?
